PROFESSIONAL EXPERIENCE

Business Analyst / Product Owner – ZentelAI | May 2025 – Present

- Gather requirements from clients and stakeholders and document them for the development team.
- Conduct stakeholder discussions to understand project goals, current status, requirements, issues and changes.
- Maintain continuous communication with stakeholders to clarify requirements and keep the project aligned with business needs.
- Manage product backlog, priorities, requirements and delivery timelines as Product Owner.
- Prepare user stories, requirement documents, test cases, test scripts and other project documentation.
- Work with developers to clarify requirements and review completed work against the expected functionality.
- Perform manual testing and validate application functionality against business requirements.
- Create and execute test cases and test scripts and document issues found during testing.
- Have basic hands-on experience with Playwright for test automation and scripting.
- Use Excel and pivot tables for analysis and perform basic MySQL checks for data validation.
- Participate in sprint planning, daily stand-ups, sprint reviews, stakeholder meetings and other Agile activities.
- Work across Business Analysis, Product Ownership, testing, documentation, stakeholder communication and delivery coordination as part of the project.

Business Analyst – NeartekPod APAC Technologies Pvt. Ltd. | May 2024 – Apr 2025

- Worked on the Jacana Warranty project and handled requirement gathering and project documentation.
- Discussed requirements with the client and converted them into tasks and functional details for development and QA teams.
- Created wireframes, process flows and use cases to explain the expected application flow.
- Worked on customer, product, policy, service request and claims related workflows.
- Worked with QA to review test scenarios, test fixes and make sure the delivered functionality matched the requirement.
- Checked functional and data issues by comparing expected and actual behaviour and discussed required fixes with the technical team.
- Worked on requirements related to AI/OCR document processing, data extraction, validation and consistency checks.
- Supported role-based access and workflow requirements across different users and project areas.
- Awarded 'Client Commitment' for project contribution and execution.

Financial Planning Manager – HDFC Life | May 2023 – May 2024

- Created financial forecasting models to support sales and operational planning.
- Reviewed sales data and trends for planning and business decisions.
- Worked on improving sales and marketing workflows through analysis.
- Contributed to a Pan-India planning initiative that achieved 2nd place.
